

Project Definition

Description (2–3 sentences)

This website will serve as a digital hub to showcase creative work, educational offerings, and community culture for a design-focused institution. The site highlights student projects, provides clear information on academics and admissions, and creates a visually engaging experience that reflects the creativity of its users.

Purpose Statement

The purpose of the site is to attract and inform prospective students while also celebrating the achievements of current students, faculty, and alumni. It aims to be both an informational resource and an inspirational showcase of creativity, encouraging users to explore, engage, and apply.

User Personas

Primary Persona

- **Name:** Jordan Lee
- **Age:** 18–22
- **Background:** High school senior interested in design and visual arts. Building a portfolio, looking at top art schools.
- **Goals:** Find program information, view admissions requirements, see examples of student work, and apply.
- **Frustrations:** Confusing navigation, hidden deadlines, difficulty finding financial aid info.

Secondary Persona

- **Name:** Maya Rodriguez

- **Age:** 25–30
 - **Background:** Graduate student / professional designer seeking advanced study or certificate.
 - **Goals:** Learn about graduate programs, find faculty research interests, view facilities and labs.
 - **Frustrations:** Overloaded academic info, lack of outcome data, hard-to-find career placement stats.
-

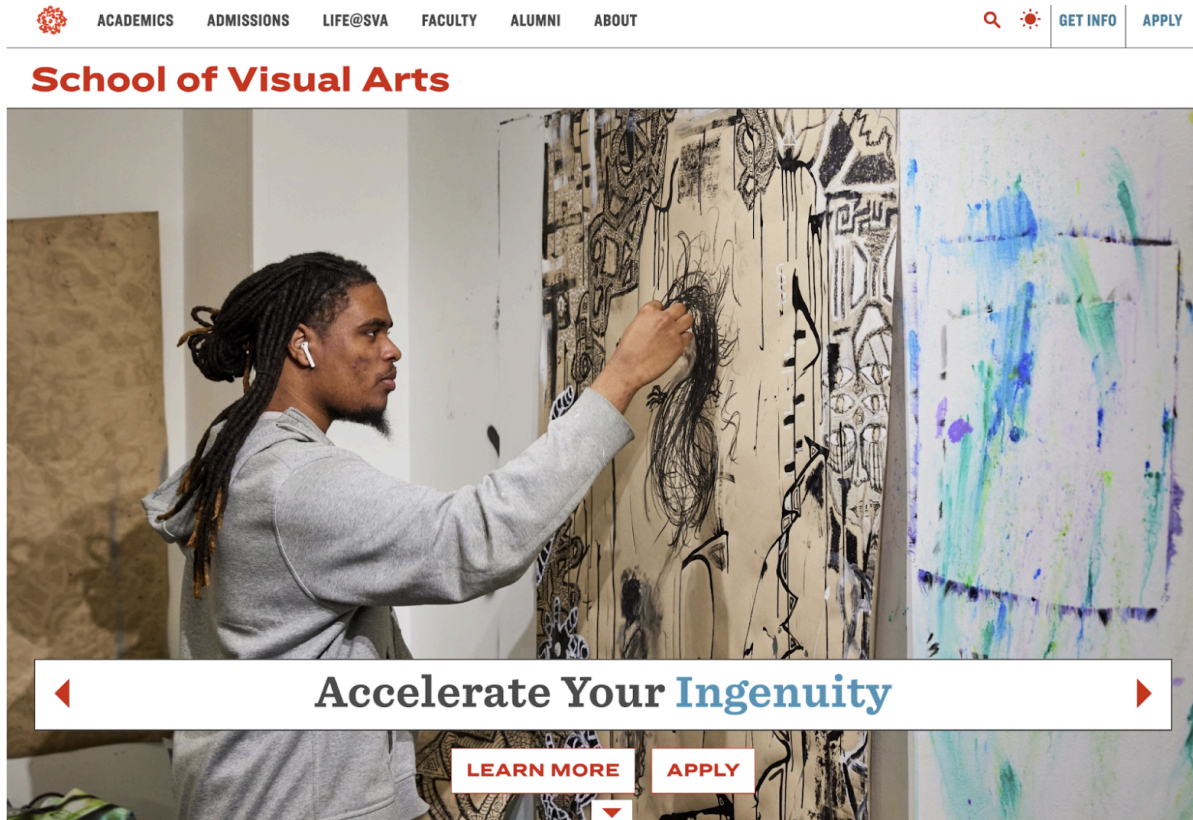

Top Five Functions of Product

1. Provide admissions and program information clearly.
 2. Showcase student work, exhibitions, and success stories.
 3. Offer simple navigation for different user needs (undergrad, grad, continuing ed).
 4. Highlight campus culture and facilities through visuals.
 5. Drive conversions through CTAs (“Apply,” “Request Info,” “Visit”).
-

Measures of Success

- Increased clicks on “**Apply**” and “**Request Info**” buttons.
- Higher average session duration (users exploring more content).
- Reduced bounce rate on homepage.
- Positive user feedback (clarity, inspiration, ease of use).
- Growth in applications or inquiries tracked from site visits.

Competitor's Visual Audit (SVA)

Color Palette:
